

RINGCENTRAL AND CDW

Simplifying Business Communications.

Cloud migration is increasingly important to the evolution of the modern enterprise. In addition to the promise of cost efficiency and greater flexibility, **the cloud will also be an essential support mechanism for new advances in AI, devops and IoT.**

CDW brings you Cloud Communications without complexity

Cloud migration does come with complexities. A meticulous process of planning, implementing and optimising is vital to ensure maximum performance is realised, risk is minimised and costs are controlled.

CDW removes complexity with a suite of services to help organisations coordinate their cloud journeys. No matter where you currently stand, CDW provides wrap-around support, drawing best-of-breed solutions from a vast range of vendors into a single dashboard, with a layer of governance to ensure performance, compliance and cost-effectiveness.

CDW has been partnering with RingCentral in the UK for 5+ years. CDW is a Global Platinum Partner, and also a Certified Delivery Partner.

State-of-the-art Cloud Communications and Collaboration Solutions

CDW has chosen to partner with RingCentral because they are a leading global provider of cloud-based business unified communications and collaboration solutions.

RingCentral is a provider of state-of-the-art cloud communications solutions that help modern companies work the way they need to. WE GET changing collaboration platforms isn't as easy as just flipping a switch

Even in the cloud, PBX complexities can be a challenge. Let our experts strategically plan, design, implement and provide the support you need for all your critical calls and meetings. With CDW RingCentral Services, you get the peace of mind knowing that you have ongoing support, best-in-class adoption assistance and a partner that will minimize frustration and downtime to you and your end users. CDW has the best practices and standardised methodology for collaboration, the RingCentral platform and the needs of your business.

RingCentral's integrated unified communications and contact centre technology running on one platform, lets the entire company become connected and as such focus on helping solve the next customer problem faster. Bad customer experiences are costly and it's important for contact centres to have a connected tissue with the rest of the organisation to get help and get it fast which is what the MVP connective fabric enables to achieve for the entire company.
